Wendeplättchen (vor dem Laminieren zusammenkleben), Zahlenkärtchen, Haus und Dächer laminieren.

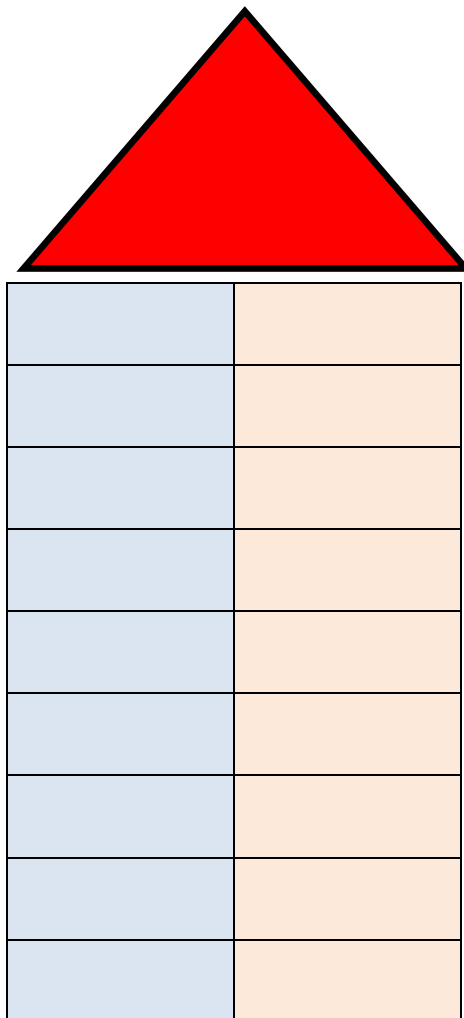

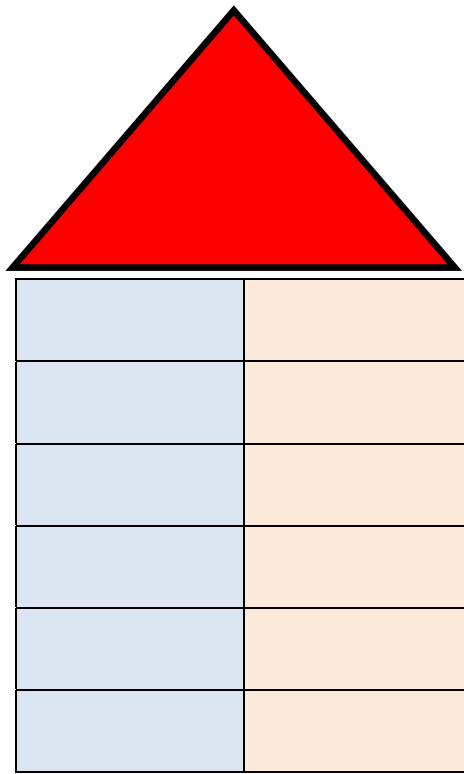

Üben:

- Haus zusammenbauen (Beispiel 5)
- entsprechende Anzahl an Plättchen werfen und farblich einsortieren, Anzahl zuordnen, Zerlegung verbalisieren, auf dem Arbeitsblatt notieren
- Platzhalter-Aufgaben: Bsp. Es sind schon 4 blaue Plättchen im Haus. Wie viele rote Plättchen können noch einziehen?
